

10 20 30 40 50 t(s)

La distància total recorreguda serà igual a l'area sota la gràfica v-t  $\Delta x = \text{Area} \Delta + \text{Area} \Box + \text{Area} \Delta = \frac{10.12}{2} + 30.12 + \frac{5.12}{2} = 60 + 360 + 30$ 

$$\Delta x = 450 \, \text{m} \quad (b)$$

$$V_{m} = \frac{\Delta x}{\Delta t} = \frac{450}{45} = \boxed{10 \,\text{m/s}}$$

$$\partial_{m} = \frac{\Delta v}{\Delta t} = \frac{0-0}{45} = \boxed{0}$$
